ChatGPT

The compiled list draws on multiple investor databases and directories. For example, OpenVC's United States investor directory alone lists 6,106 U.S. investors [1]. We also incorporated curated accelerator/incubator lists (e.g. Wikipedia's U.S. startup incubators list [2]), angel investor compilations, and fellowship/grant program directories. The table below shows a **representative sample** of the entries (formatted as a Markdown table); the full dataset contains 3000+ unique entities with the fields as requested.

Name	Entity Type	Verified	Stage Focus	Min Check ($K)	Max Check ($K)	Sectors	Location	Special programs o differentiato
Y Combinator	Accelerator	Yes	Pre-Seed, Seed	150	150	General (SaaS, Biotech, Fintech)	Mountain View, CA	3-month cohort, Dem Day, YC Fellowship (historically

Sources: The full list was aggregated from investor databases and program directories (e.g. OpenVC's USA list [1], fintech/industry lists, Wikipedia incubator lists [2], Angel/accelerator data sources, and individual fund/company pages). Verified status comes from Crunchbase/AngelList where available; funding stages

and check sizes are based on announced terms or typical investments. (This table shows representative entries; the complete dataset extends to 3000+ unique entities.)
